*So many Cartoons have loud and
obnoxious characters in them, Why

that speaks to children with more
dignity and respect, not shouts
at them.*

I am the mother of two boys ages 5 & 11. I am appalled! at much of what is on T.V. today. Any effort to improve the quality of today's programming would be a great gift to our nation's children and families.

Subject: Support for Educational programming

AUG 14 1995

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF SECRETARY

I am writing to express my support for the requirement that users of broadcast spectrum, including new HDTV spectrum, be required to bid for the use of that spectrum. The auction should be conducted similar to the auction recently conducted for cellular spectrum.

With regard to childrens programming,

All bidders should be required to commit to a minimum amount of children's education programming set in advance by the FCC. They should also be able to bid more programming in lieu of cash (FCC could set the programming-to-cash rate in advance)

Further, a percentage of the revenues collected should be reserved for public broadcasting. That money could be used for all sorts of programming in the public interest.

The rest of the revenues should go to the Treasury.

Thank you for considering my views. Please keep leasers of the public airwaves operating in the public interest.

Sincerely,

Alan Comnes
